---

---

---

---

---

---

---

## Speaker Declarations

- 3M - Speaker; consultant
- HRET - Extended Faculty for AHRQ's National Safety Program for Ambulatory Surgery

---

---

---

---

---

---

---

---

## Objective

- Prepare a risk assessment for an Ambulatory Surgery Center (ASC).

---

---

---

---

---

---

---

---

## Let's Review...

- Use your template
- Review potential risks/problems
- Review:
  - What is the level of risk?
  - What is the impact?
  - How prepared is your ASC?
- Review scoring and addition of totals
- Review prioritization (may select a lower score if a requirement)

---

---

---

---

---

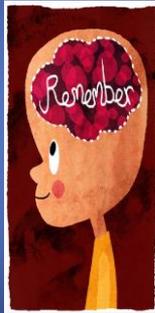

---

---

---

## Caveats...

- Remember you can add risks or steps to template (first column)
- Be specific for your facility
- Sum each risk across the page
- Everything can not be a priority!!! Prioritize top 4 risks (may do more)

---

---

---

---

---

---

---

---

## Your turn

	A	B	C	D	E
	Negligible	Minor	Moderate	Significant	Severe
E	Very Likely	Low Med	Medium	Med Hi	High
D	Likely	Low	Low Med	Medium	Med Hi
C	Possible	Low	Low Med	Medium	Med Hi
B	Unlikely	Low	Low Med	Medium	Med Hi
A	Very Unlikely	Low	Low	Low Med	Medium

---

---

---

---

---

---

---

---

## Now

- Goals
  - Objectives
    - Interventions
    - Evaluation
- “PLAN” for the program to work!

---

---

---

---

---

---

---

---

- Sharing time....

---

---

---

---

---

---

---

---

## Celebrate!

---

---

---

---

---

---

---
