

Sharps Safety Products

Hands Free and Neutral Zone Solutions to Protect Against Sharps Injury and Potential Contamination

Stretch-A-Tray™

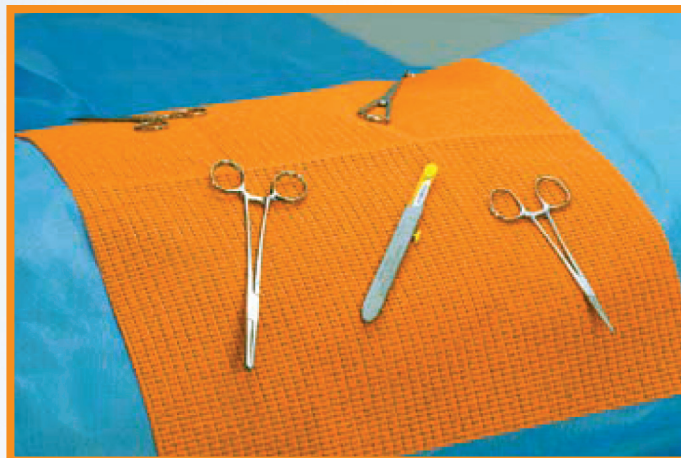

Minimize the Risk of Puncture Injuries

Disposable tray expands to provide for “hands free” transfer of sharps and accommodates a wide variety of handles and instrument lengths.

Z-Friction Drape™

Unmistakable Non-Skid “Neutral Zone”

Flexible non-skid surface prevents instruments from sliding off the sterile field and provides an obvious neutral zone. Can be used on the sterile field or Mayo stand.
